OVID-19 Business Response - 3/17/2020 Update: Due to local, state and federal guidelines and recommendations from the CDC, Big League Dreams has halted all Sports Park activity until April 1. While this decision was not easy for us to make, we feel it is in the best interest of our players, guests and employees to stem the outbreak of the coronavirus by encouraging social isolation. Additional updates will be provided as they become available on both our website and social media platforms.

We know that Big League Dreams has often served as a safe haven from the daily stress of life for many. We look forward to re-opening and continuing to serve our communities once the safety of those communities can be ensured. In the meantime, we encourage everyone to do what they can in these next few weeks to stay safe and healthy.

We appreciate your continued patience and understanding during these unprecedented times.
